3509 Normandy Ln Apt 28 ◊ Roanoke, VA 24018

(919) 371-8642 ◊ neil.wang@alumni.unc.edu

## EXPERIENCE

---

### General Electric

*Software Engineer*

2015 - Present

*Salem, VA*

- Built applications using microservice architecture at scale for the Cloud and Edge on Predix, an industrial Cloud AaaS built upon Cloud Foundry.
- Deployed applications on Edge devices using OSGi and Docker containerization technology.
- Developed a cross platform iOS/Android app with Xamarin to aid engineers commission a power plant.
- Mentored interns and junior engineers on modern cloud application development.
- Refactored the codebase of a bloated app by 25%, enabling it to reach market on time.
- Delivered results through Agile and Test Driven Development and Continuous Integration practices.

#### *Technologies:*

React, Polymer, Node.js, Spring, ASP.NET, PostgreSQL, Couchbase, Cloud Foundry, Gulp, Git, Jenkins, Mocha, Chai

### Humana

*Applications Engineer Intern*

2014 - 2015

*Louisville, KY*

- Delivered web applications built with ASP.NET and AngularJS 1.x to internal customers.
- Wireframed with Axure and gathered UX feedback via hallway usability testing
- Designed UI conforming to Humana's design guidelines
- Scrum mastered for my team, conducted daily standups, and shielded members from distractions

#### *Technologies:*

AngularJS 1.x, ASP.NET MVC 4, Microsoft SQL Server, TFS, Git

### University of North Carolina at Chapel Hill

*Residential Computing Consultant*

2013 - 2015

*Chapel Hill, NC*

- Represented UNC ITS at official university events
- Advised residential communities on technology needs
